

# ENERGYWISE

for your Home

**If every American home replaced their 5 most frequently used light fixtures or the bulbs in them with ones that have earned the ENERGY STAR, we would save \$8 billion each year in energy costs and prevent greenhouse gases equivalent to the emissions from 10 million cars.**

## YOUR GUIDE TO ENERGY EFFICIENT LIGHTING

Shopping for light bulbs used to be easy, however, these days there are a variety of energy-efficient lighting products on the market. While they will help you reduce your energy consumption, picking the right bulb can be a bit overwhelming. This guide will help you find the right lighting products to fit your needs.

### LEDs

- Use about 70 percent less energy than standard incandescent bulbs and last a minimum of 25,000 hours, or 22 years based on average household use.
- ENERGY STAR®-rated LEDs recommended for the greatest energy savings.
- Produce very little heat, cutting energy costs associated with home cooling and making them less likely to be a fire hazard, plus they are shatterproof, shock resistant and safe to touch.
- Come with a minimum three-year warranty.
- Some indoor models available with dimming.
- Some outdoor models available with automatic daylight shut-off or motion sensor.

### LED Yard Light

- LED yard lights deliver more lumens per watt than more traditional yard lights such as Mercury Vapor, High Pressure Sodium and Metal Halide.
- LED lights also last much longer than traditional yard lights, so it may be the last one you install.

### Get the Facts

When comparing lighting products, look for the Lighting Facts label, which is required on most lighting packages by the U.S. Federal Trade Commission. The label provides accurate information on the brightness (in lumens), energy used, rated life, and estimated annual energy cost of each product.

## Rebate Application

### Member Information:

Name \_\_\_\_\_ Account # \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_ Phone \_\_\_\_\_

Member Type  Homeowner  Renter  Landlord  Builder  Other

By signing this application, I certify that the bulbs for which I am claiming a rebate are **qualifying ENERGY STAR® or DLC rated** products and are installed at the address listed above which represents a valid cooperative account.

Member Signature \_\_\_\_\_ Today's date \_\_\_\_\_

### Bulb Information

Receipt and UPC provided

LED (\$2 per qualified bulb, limit 5) Quantity \_\_\_\_\_ Total Rebate \$ \_\_\_\_\_

LED Yard Light\* (\$30 per fixture) Quantity \_\_\_\_\_ Total Rebate \$ \_\_\_\_\_

A copy of the sales receipt is required in order to have the rebate processed. **Rebate will not exceed 50% of the actual cost of the bulb.** Rebates must be submitted within 90 days of purchase, and will be applied as a credit to your account.

\*Cooperative residential members are eligible for a \$30 rebate for the LED fixture only (not the bulb) installed in cooperative's service territory. **Fixture must be EnergyStar® or DLC rated. New LED installations or LED replacements for high pressure sodium, metal halide, or mercury vapor must be 50–100 watts.**

### Retailer Information

Retailer/Store Name \_\_\_\_\_ Location \_\_\_\_\_

Rebates are available for the purchase of new ENERGY STAR® or DLC rated bulbs or fixtures. Rebate submittal must follow the guidelines as outlined by cooperative. Cooperative is not responsible for inaccurate information supplied by the bulb or fixture manufacturer. Rebates will be issued only for products on the current list of ENERGY STAR® rated products as of the purchase date. ENERGY STAR® occasionally removes products from qualifying lists, and cooperative will not rebate products that have been delisted as of the purchase date or are mislabeled as ENERGY STAR®. To verify ENERGY STAR® certification for appliances and lighting, visit [www.energystar.gov](http://www.energystar.gov) or call 1-888-STAR-YES. Rebate program is subject to change or cancellation without notice. Call your cooperative to verify rebate program status and availability of rebates.

### Important:

- The bulb(s) or fixture(s) must be installed within cooperative's service territory.
- Incomplete forms will not be processed.
- Include a copy of the original dated sales receipt and the package UPC symbol.
- Submit completed rebate form and a copy of the original sales receipt within 90 days of purchase date to:
