

ENERGY WISE

for your Home

Your central air conditioner (CAC) or air-source heat pump (ASHP) can be your best friend on hot summer days. If you treat it well and keep it running efficiently, it will keep you cool and comfortable for less money.

TUNE-UP FOR SUMMER!

The best way to ensure efficient operation of your cooling system is by having it tuned-up every two years. A tune-up by a service expert can improve your unit's efficiency by as much as 20 percent, extend its life and help protect our environment.

To qualify for the tune-up rebate:

1. Tune-up must be completed where electricity is supplied by Steele-Waseca Coop.
2. The CAC or ASHP must be in operating condition, over three years of age and have not had a tune-up in the last two years.
3. Rebate submittal must follow the guidelines as listed.
4. Program is subject to change or cancellation without notice. Call SWCE to verify rebate status.
5. Program is for tune-ups only; it does not cover the cost for repairs of the air conditioner or heat pump.

Contact a local HVAC service contractor and receive a \$25 rebate.

- Hire the contractor.
- After completing the tune-up, have your contractor fill out the contractor portion of the coupon below.
- Complete the member portion of the coupon.
- Return the coupon to SWCE along with a copy of the contractor invoice.
- The rebate option is available to members through Dec. 31, 2017.
