

Variable speed pool pumps

Have fun in the sun and save.

ENERGY STAR® POOL PUMP VARIABLE SPEED MOTORS

Pool pumps that have earned the Energy Star rating are independently certified to save energy and save you money. Variable speed pool pumps, unlike traditional single-speed pumps that run at a constant speed, are advanced devices that allow users to adjust the pump's speed to meet different pool maintenance needs. By operating at lower speeds when full power isn't necessary, these pumps use significantly less energy and can be tailored for tasks such as filtration, heating, or cleaning. They are equipped with digital controls, which enable precise scheduling and speed adjustments, ensuring optimal performance for each pool function. Many models are also compatible with smart home systems, allowing for remote monitoring and automation, which further streamlines pool management and reduces operational costs.

The benefits of variable speed pool pumps include substantial energy savings—up to 70% less energy consumption compared to standard pumps. Because of their efficient design, homeowners often see a return on investment within just a few years through reduced

electricity bills. They also operate more quietly, extend the lifespan of pool equipment by reducing strain on system components, and improve water filtration through slower, more effective circulation rates. Enhanced filtration at lower speeds helps maintain water clarity and chemical balance, reducing the frequency of chemical treatments. Additionally, these pumps require less maintenance and can be programmed to match pool usage patterns, further enhancing efficiency and convenience. With their advanced features and reliability, variable speed pumps contribute to a more environmentally friendly and cost-effective pool experience. **SWCE** offers a rebate of **\$100** on any new ENERGY STAR qualified variable speed pumps.

WHO CAN PARTICIPATE?

To qualify for this rebate, you must be a member of [local cooperative], live in the cooperative's service territory, and meet the specific requirements of the rebate.

City _____ State _____ ZIP _____ Phone _____

Member Type ☐ Homeowner ☐ Landlord ☐ Builder ☐ Renter ☐ Other

EQUIPMENT INFORMATION

Variable Speed Pool Pump

Applies to ENERGY STAR rated variable speed and variable-flow pumps.

☐ ENERGY STAR rated (if packaging does not confirm rating, verify the pump is ENERGY STAR rated at energystar.gov)

Manufacturer _____

Model _____

Rebates are available only for the purchase of new ENERGY STAR variable speed pumps. Rebate submittals must follow the guidelines as outlined by SWCE. SWCE is not responsible for inaccurate information supplied by appliance dealers. Rebates will be issued only for products on the current list of ENERGY STAR rated products as of the purchase date. ENERGY STAR occasionally removes products from qualifying lists, and SWCE will not rebate products that have been delisted as of the purchase date or are mislabeled as ENERGY STAR. Rebate program is subject to change or cancellation without notice. Call the SWCE to verify rebate program status.

IMPORTANT:

- Limit of one rebate each per member account. Rebate amount cannot exceed half the equipment cost.
- Equipment must be installed within SWCE's service territory. All rebated equipment is subject to SWCE inspection/verification.
- Fill out this form completely. Incomplete forms will not be processed. Include your account number.
- Due to limited funding, this rebate offer can be withdrawn at any time without notice.
- Submit completed rebate form, copy of the original sales receipt and photo within 90 days of purchase date.
